

JOSH A. WESTON

EFFICIENT, CREATIVE, LOGICAL

Weston enjoys solving problems and creating user friendly solutions. He thinks big-picture and always has a plan several steps down the line, or can easily generate one when the situation changes. Likes the challenge of finding the optimal way to achieve goals and will put in the extra work to make them happen.

Weston creates in a wide range of mediums from digital to traditional. He believes in handmade, custom and unique. Handmade elements can give that stand-out edge in an age of algorithm based design. Strong interpersonal skills and a history of leadership makes him a solid choice for handling mass work loads in a team setting. [734-709-9677](tel:734-709-9677) | josh@westoncreatives.com

“ I've worked with Josh many times through the years. He is one of the most creative people that I have ever worked with. He just oozes creativity and always is finding ways to innovate. He also constantly is teaching himself new techniques, learning new programs and trying to excel in his craft. Josh is definitely one of the most talented people I've ever worked with and would be a very valuable asset to any organization that he works for.

Damian Rintelmann
Marketing Executive | Innovator | Digital Strategist | Creative Technologist

“ Josh always produces smart, innovative and interesting designs, and does it for a wide range of clientele and on tight turn-arounds. His designs for conservative, corporate groups are just as on-point as his designs for the ultra-cutting edge and trendy types. Additionally, Josh is a valuable resource at any point in a project, always bringing great ideas to the table in digital strategy and information architecture.

Todd Yerman
SVP of Advertising Agency Business Development, Marketing and Public Relations Strategist
